

THE CAPTURE: BOTH REFERENTS VISIBLE

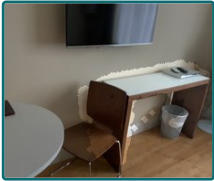

THE TWO REFERENTS, AS DELIVERED

obj\_1: the basket.

Bridge resolved it: **correct**.

obj\_14: the desk.

Bridge **abstained**: no entity won two view slots.

Stored edge obj\_1 ↔ obj\_14: surface distance **0.0 m** < 1.0 m: the serialized **NEAR** edge matches recomputed geometry under the same convention.

stored relations, human identity  
**NOT DEPLOYABLE**

**correct**

delivered graph, learned labels

**could not answer**

no delivered instance carries an admitted label for this object

grounded graph, CLIP bridge

**could not answer**

the grounding bridge abstained on this anchor

direct multiview RGB

**correct**
